

TRIO

TRIO Student Support Services (SSS) is a Title IV federally funded program intended to serve 140 eligible Oxnard College students. This project is funded from 2020-2025, at which point, the college will have the opportunity to apply for a grant renewal.

Services Offered:

- **Academic Advising:** our program has its very own academic counselor that our program participants will have exclusive access to. That means avoiding long waits, truly getting to know your counselor, and getting all of your academic questions answered in order to help you reach your educational goals ASAP!
- **Workshops:** We are committed to working with other campus departments to provide workshops including: financial aid/literacy, transfer, career exploration, college applications, resume building, mental health/well-being, and more! We will look to YOU to tell us what your needs are to help us in developing relevant workshops
- **Tutoring:** We will offer additional tutoring support to our students who need that extra help!
- **Mentorship:** We are currently working on developing a mentorship pipeline in which YOU will be connected to a mentor AND you will also mentor a TRIO high school student. It is in giving that we receive, and YOU have much to offer the next generation.
- **A Home Away From Home:** Our office is set up to feel like home- we have areas to study, a lounge area (yes couches), a TV, a kitchen, and simply put, a place for you to go when you're not in class.
- **AND MORE:** Anyone you talk to who has been part of any TRIO program will tell you that the sense of family and connection is what makes our programs so unique. Come find out for yourself.

Upward Bound is a five-year federally funded Title IV grant. Currently, the project serves 70 high school students from Channel Islands and Hueneme High Schools. Oxnard College initially received the Upward Bound grant in 2017. It has since been renewed until 2027.

Upward Bound provides fundamental support to participants in their preparation for college entrance. The program provides opportunities for participants to succeed in their precollege performance and ultimately in their higher education pursuits. Upward Bound serves: high school students from low-income families; and high school students from families in which neither parent holds a bachelor's degree. The goal of Upward Bound is to increase the rate at which participants complete secondary education and enroll in and graduate from institutions of postsecondary education.
