GAME DESIGN, ASSOCIATE IN SCIENCE

The Game Design program is designed to prepare students for freelance careers and/or entry-level employment as independent game developers or with game design and development companies. Students explore creative, technical, critical, and design-based solutions to real-world issues in order to meet the rigors of a dynamically evolving array of game-oriented professions.

To earn an Associate in Science in Game Design, students must complete 34-37 specified units, plus General Education degree requirements.
