

# DENTAL ASSISTING

The Dental Assisting Program prepares students to the high demand field of professional dental assisting. Dental assistants are a significant and valuable member of the dental health care team. Students are trained to perform a wide variety of duties including working chairside as patients are examined and treated, sterilizing instruments, and applying anti-cavity agents to teeth. Dental assisting students are also taught to perform laboratory duties such as taking impressions and making temporary crowns. Additionally, the Dental Assisting Program offers curriculum on executing office duties such as scheduling and confirming patients, updating and maintaining patient dental records, ordering dental supplies, and assisting with general office administration.

The Dental Assisting Program at Oxnard College includes patient care practice in a fully equipped on-site facility as well as off campus externship experiences.

The Dental Assisting program is not a selective program. There are no additional mandatory fees for the Dental Assisting program beyond enrollment (tuition) fees, Health Fees, and Student Center Fees.

## DA R010 Introduction to Dental Assisting 3 Units

*In-Class Hours:* 52.5 lecture

*Corequisites:* DA R011 and DA R012 and DA R013 and DA R014 and DA R015

*Advisories/Rec Prep:* High School Diploma or GED and ENGL R101 or ENGL R101H

*Enrollment Limitations:* Current CPR certification for health care provider (American Heart Association) or professional rescuer (American Red Cross).
