

PRE-HEALTH PROFESSIONS, CERTIFICATE OF ACHIEVEMENT

The Certificate of Achievement in Pre-Health Professions provides the core science courses required for the majority of health professional programs, including, but not limited to nursing, radiologic technology, physician's assistant, respiratory technology, sonography, nuclear medicine, pharmacy, clinical laboratory assistance, occupational therapy, veterinary technology, and other related fields. Students preparing for the Dental Hygiene program at Oxnard College may complete this Certificate as part of the preparation required for admission to the Dental Hygiene program, but will need additional coursework to meet all of the program prerequisites. The Certificate of Achievement does not include General Education courses which may be required for admission to some Health Professional Programs, therefore it is recommended that students work with a Counselor in determining if additional coursework is required for their particular program or if the Associate in Science degree in Pre-Health Professions may be more appropriate.

Course ID	Title	Units/ Hours
Required Core Courses		
ANAT R101	General Human Anatomy	4
PHSO R101	Human Physiology	5
MICR R100	Principles of Microbiology	3
MICR R100L	Principles of Microbiology Laboratory	2
Elective Courses		
BIOL R101 & R101L	General Biology and General Biology Laboratory	4
Or		
BIOL R101H & BIOL R101L	Honors: General Biology and General Biology Laboratory	4
Or		
CHEM R104 or CHEM R110 or CHEM R112	General, Organic, and Biological Chemistry Elementary Chemistry Elementary Organic and Biological Chemistry	5
Total Required Major Units		18-19

Year 1		
Fall Semester		Units/Hours
BIOL R101 & R101L	General Biology and General Biology Laboratory	4
Or		
BIOL R101H & BIOL R101L	Honors: General Biology and General Biology Laboratory	4
Or		
CHEM R104 or CHEM R110 or CHEM R112	General, Organic, and Biological Chemistry or Elementary Chemistry or Elementary Organic and Biological Chemistry	5
Units/Hours		13
Spring Semester		
ANAT R101	General Human Anatomy	4
Units/Hours		4

Year 2

Fall Semester

PHSO R101	Human Physiology	5
Units/Hours		5

Spring Semester

MICR R100	Principles of Microbiology	3
MICR R100L	Principles of Microbiology Laboratory	2
Units/Hours		5
Total Units/Hours		27

Upon successful completion of this program, students will be able to:

- Apply the scientific method in order to explain natural phenomena.
- Use acquired knowledge of biology to analyze and interpret scientific data.
- Communicate core concepts central to biology using scientific terminology.
