

TRANSFER TO COMPLETE YOUR BACHELOR'S DEGREE

What is a Bachelor's Degree?

A bachelor's degree, sometimes called a baccalaureate degree, generally requires 4–5 years of study at a university. A bachelor's degree requires completion of both lower- and upper-division courses.

Community colleges typically offer lower division courses, providing students the opportunity to complete general education and lower division major or pre-major coursework prior to transferring to a university. Once students transfer, they will complete mainly upper-division coursework in their major at the university.

In an effort to make it easier and more affordable for community college students to get earn their baccalaureate degree and be eligible for a broader array of employment opportunities, Assembly Bill 927 (Medina) was signed into law on October 6, 2021 by California Governor Gavin Newsom. This resulted in California Education Code Section 78040 et seq. being amended to authorize the expansion of baccalaureate degree programs being offered at California Community Colleges. All 3 colleges of the Ventura County Community College District have been approved to offer a baccalaureate degree. Moorpark College has been approved and will begin to offer the Biomanufacturing Bachelor's degree program in Fall 2024. Ventura College has been approved to offer a Bachelor of Science Degree in Automotive Career Education and Oxnard College has been approved to offer a Bachelor of Science Degree in Dental Hygiene. Both Ventura and Oxnard anticipate their programs beginning in Fall 2025. For a complete list of baccalaureate degrees offered or soon to be offered at California Community Colleges, see the Chancellor's office Baccalaureate Degree Program webpage. The Bachelor of Arts (BA) and Bachelor of Science (BS) are the common baccalaureate degrees. BA degrees are most often awarded in the arts, humanities, and social sciences. BS degrees are more likely to be awarded in the sciences, math, and engineering, and in professional or technical fields of study. However, there are no absolute universal differences between these degrees and policies; their award varies from university to university.
